As the largest industry in Thailand, food products account for more than 20 percent of the country's gross national product. Consumers drive the industry as they seek more convenience and more nutritious food especially as the world going into the aging society.

As the industry strives to meet consumer demands, its feast, not famine, in the job market for trained food biotechnologists as the demand for their knowledge grows. School of Biotechnology, Assumption University intended to provide programs of study for students with an interest in this field.

The new and improved curriculum offers a new track of study for those that are interested in becoming entrepreneurs in the food industry with collaboration with School of Management and Economics, AU (MSME). Due to the collaboration between University of California at Davis (whose recognized worldwide for their expertise in food and beverages technology) and Assumption University, students will learn cutting-edge technology in the nation's fastest growing food industry.
